Summary

I am a passionate QA engineer with nearly a year of professional experience. I specialize in testing tools and frameworks like Cypress, Selenium, Postman, Supertest, and Jest. With meticulous attention to detail, I strive to ensure high-quality software by creating automated tests, designing test cases, and executing them to identify and report defects. I am dedicated to continuous learning, staying updated with industry trends, and collaborating with cross-functional teams to deliver reliable and bug-free software solutions. Let's work together to create exceptional software experiences.

Experience

≡ Software Quality Assurance Engineer

AmaliTech gGmbH

Dec 2022 - Present (8 months)
